PROJECTS

Book Store
S B Jain Institute of Engineering,, Nagpur

Designed and developed a fully responsive online bookstore where users can browse books, search by genre, and view details. Focused on a clean interface, smooth navigation, and user-friendly design for an engaging shopping experience.

Outcome: Improved web development skills and gained practical experience in front-end design.

AI-Based Book Recommendation System
S B Jain Institute of Engineering,, Nagpur

Developed a recommendation engine using Python and machine learning algorithms like collaborative filtering and content-based filtering to suggest books based on users' past interactions and preferences.

Outcome: Learned fundamentals of recommendation systems and hands-on ML model building.

Personal Blog Page
S B Jain Institute of Engineering,, Nagpur

Created a personal blog platform integrated with my portfolio where I post about coding, projects, and tech learning. The page includes sections for articles, tags, and categories for better navigation.

Outcome: Enhanced my front-end skills and learned to structure content for better user engagement.
